#### Gartner IT SYMPOSIUM Xpo 2022

#### Průvodce CIO a IT exekutivy akcelerací digitálního byznysu

7.-10. listopadu 2022, Barcelona

IT a technologie jako nástroje udržitelného růstu

https://www.kpcgroup.cz/inside/files/2022/11/brozurasymposium-ITxpo-2022.pdf

pauze vrací do katalánské Barcelony. Nejvýznamnější se-

tkání CIO, IT lídrů a analytiků bylo tentokrát zcela vy-

prodáno ještě před koncem září a v INSIDE se vám z ní

podobně jako v předchozích letech pokusíme shrnout tv

nejzajímavější postřehy. Mezi ně pravidelně patří i téma

"sedm otřesů, které CIO nejspíš neočekávají", které jsme

vybrali jako ochutnávku toho "exotičtějšího" (nebo

chcete-li odvážnějšího, bláznivějšího), co sympozium

každoročně nabízí. V Barceloně bude pochopitelně

"sedmi otřesům" věnována samostatná přednáška, kde se

o těchto sedmi tématech dozvíte mnohem víc. Dovolili

jsme si k sedmi možným otřesům doplnit komentáře

Práce v metaverzu (Metaverse work experiences)

Definice sestavená analytiky popisuje metaverzum

jako "další úroveň interakce s virtuálním a fyzickým

světem". V dnešní době využívají firmy technologie

metaverza (nemusí přitom jít jen o obligátní AR a VR)

skrze kvalitnější pohlcující pracovní prostředí ve vir-

tuálních kancelářích a tvorbu interních zážitků v me

taverzu nazývaných intraverza (pozn. red.: víme, udržet

zde nit není snadné). Gartner předpovídá, že na plně

virtuální pracovní prostředí bude připadat asi 30%

investičního růstu v oblasti metaverza technologií

a do roku 2027 se díky tomu zcela změní povaha

kancelářské praxe.

pro lepší interakci, zapojení, spolupráci a propojení

s naším redakčním pohledem na dané téma.
